

FOLLOW OUR GOOD NAME!

Welcome to the SCC: We are one of Europe's biggest consultancy companies in the regulation sphere, a respected partner of the chemical and pharmaceutical industry, and, for more than 140 experts from different countries, a professional home. Our passion: managing registration and approval procedures for chemicals such as agrochemicals, pesticides, biocides, etc. as well as for pharmaceuticals and medical devices. Our goal: to grow even further and to open up new areas of business in an international client environment. In the personal, open working culture of a family business that is focused on caring for its team. Located at the heart of the Rhine-Nahe region, alongside nature, but also right next to the vibrant Rhine-Main area. Expand our scientific expertise as

NATURAL SCIENTIST (M/F/D) - ASSISTANCE

BAD KREUZNACH

WHAT YOU CAN EXPECT

- Your path is taking you into a team of currently 27 people – and right into our enormous diversity of projects
- Your task: Assist with the preparation of dossiers (IUCLID, OECD, dRR) and in development, maintenance and improving of submission documents. Pack and dispatch regulatory submissions, contracts, and documents, follow up for delivery confirmation, obtain and file acknowledgement receipts and update relevant tracking tools. Preparing documents for meetings and business trips. Perform administrative work for applications for active substance approvals/PPP authorisations. Provide general administrative assistance for the smooth running of the team. You will be involved in different regulatory projects.
- Your mission: Assistance of the regulatory team

WHAT WE OFFER

- Opportunities for personal development
- Intensive on-the-job training and flexible working hours
- An attractive salary with profit-sharing, bonuses and benefits (company pension plan, food allowance, etc.)
- A very good working atmosphere in a team supported by corporate events and socialising outside of work (not currently because of the corona pandemic)

Do you thrive on challenging projects in an interdisciplinary team of ambitious professionals? Then apply online via the link below!
