

Shaping the future together for a society worth living in - this is the vision of TH Wildau! As a university of applied sciences, we strive to support social transformations responsibly and with a strong practical focus. We bring technology and management together, turning interdisciplinary spaces into innovative learning environments and fostering creativity in our research and teaching. In the metropolitan region of Berlin/Brandenburg, our campus is renowned as a hub for connection, lifelong learning, and collaboration across diverse (disciplinary) cultures.. With its state-of-the-art facilities and 19th-century industrial architecture our campus also symbolizes what is important to us as experts and as people: we connect!

**We would like to strengthen our team in the Faculty of Engineering and Natural Sciences with the following position:**

## **Professor (f/m/d)**

(Salary W2 BbgBes0)

**in the field of Avionics and Flight Guidance**

(reference number LL1)

### **Your areas of responsibility**

- You represent your field in teaching, applied research and knowledge transfer.
- You are present on campus and online, providing intensive support to students and conducting in praxis-oriented teaching within your field of expertise, as well as in other degree programmes, related foundational subjects, and part-time degree programmes in both German and English.
- You use innovative (digital) teaching and learning methods and are committed to developing them further.
- You conduct praxis-oriented research projects and knowledge transfer, in particular with other universities, research institutes, business and industry.
- You are involved in study reform processes and university administration duties, and support university-wide goals (including being aware of heterogeneity, promoting women in STEM subjects and actively engaging with change and complexity).
- You are involved in interdisciplinary, cross-departmental and interdisciplinary modes of study and work as learning factories.

### **Information and contact details**

The advertised professorship is a permanent position.

The position is to be filled at the earliest possible date and is suitable for part-time work.

**Questions about the professorship?**
