TH
WILDAU

Shaping the future together for a society worth living in - this is the vision of TH Wildau! As a university of applied sciences, we strive to support social transformations responsibly and with a strong practical focus. We bring technology and management together, turning interdisciplinary spaces into innovative learning environments and fostering creativity in our research and teaching. In the metropolitan region of Berlin/Brandenburg, our campus is renowned as a hub for connection, lifelong learning, and collaboration across diverse (disciplinary) cultures.. With its state-of-the-art facilities and 19th-century industrial architecture our campus also symbolizes what is important to us as experts and as people: we connect!

We would like to strengthen our team in the Faculty of Business, Computing and Law with the following position:

Professor (f/m/d)

(Salery W2 BbgBesO)

in the field of Government Technology and Legal Technology

(reference number ÖV7)

Your areas of responsibility

- You represent your field in teaching, applied research and knowledge transfer.
- You are present on campus and online, providing intensive support to students and conducting in praxis-oriented teaching within your field of expertise, as well as in other degree programmes, related foundational subjects, and part-time degree programmes in both German and English.
- You use innovative (digital) teaching and learning methods and are committed to developing them further.
- You conduct praxis-oriented research projects and knowledge transfer, in particular with other universities, research institutes, business and industry.
- You are involved in study reform processes and university administration duties, and support university-wide goals (including being aware of heterogeneity, promoting women in STEM subjects and actively engaging with change and complexity).
- You are involved in interdisciplinary, cross-departmental and interdisciplinary modes of study and work.

Information and contact details

The advertised professorship is a permanent position.

The position is to be filled at the earliest possible date and is suitable for part-time work.

Questions about the professorship?

Your profile

- with a university degree in computer science or a related field (e.g. business or administrative informatics) relevant to the area of appointment and a relevant doctorate
- experience with IT applications in the legal or administrative field and be able to work in an interdisciplinary manner
- In-depth expertise, based on practical, teaching and research experience, in governance technology (GovTech) and legal technology (LegalTech) from a computer science perspective
- practical or research experience in the digitalisation of business processes in public administration or in law firms
- Further links to topics in public administration, law and business informatics are relevant
- • Experience with the integration of AI systems is advantageous
- Applicants are expected to provide evidence of relevant academic achievements, usually in the form of a doctoral degree.

President
of Technische Hochschule Wildau –
Technical University of Applied

We welcome all qualified applicants - regardless of gender, nationality and origin. Applicants with disabilities will be given preference if they fulfil the criteria and qualification requirements.

We would like to increase the proportion of female professors at our university and therefore expressly encourage women to apply. We also welcome applicants with children - TH Wildau is certified as a family-friendly university.

To allow for consideration of academic age, we ask all applicants to indicate the five most relevant publications for this professorship in their list of publications.

We look forward to receiving your application!
