

# FOLLOW OUR GOOD NAME!

**Welcome to the SCC:** We are one of Europe's biggest consultancy companies in the regulation sphere, a respected partner of the chemical industry, and, for more than 140 experts from different countries, a professional home. Our passion: managing registration and approval procedures for chemicals such as agrochemicals, pesticides, biocides, etc. Our goal: to grow even further, in an international client environment. In the personal, open working culture of a family business that is focused on caring for its team. Located at the heart of the Rhine-Nahe region, alongside nature, but also right next to the vibrant Rhine-Main area. Expand our scientific expertise as

## GEOSCIENTIST (M/F/D) - REGULATORY SCIENCE

BAD KREUZNACH

### WHAT YOU CAN EXPECT

- Your path is taking you into a team of currently 40 people – and right into our enormous diversity of projects
- Your task: you calculate the concentrations of substance to assess the environmental risk, plan/coordinate and monitor studies and assist various regulatory projects
- Your mission: assessment of the environmental fate and behavior properties of various substances mainly in the field of plant protection
- Your focus: to obtain approvals/authorisations for our clients' active substances and products with a focus on the European market

### WHAT WE OFFER

- Opportunities for personal development
- Intensive on-the-job training and flexible working hours
- An attractive salary with profit-sharing, bonuses and benefits (company pension plan, food allowance, etc.)
- A very good working atmosphere in a team supported by corporate events and socialising outside of work (not currently because of the corona pandemic)

### WHAT YOU OFFER

- Science degree in natural sciences (e.g. soil science or geocology or related scientific disciplines)
- Preferably at least 2-3 years' experience in environmental fate and behavior and preferably in the sphere of regulation (with a focus on plant protection)
- Ability to tackle and coordinate complex issues effectively
- A talent for organisation, goal orientation and awareness of deadlines
- Strong communication and presentation skills in German and English

Do you thrive on challenging projects in an interdisciplinary team of ambitious professionals? Then apply online via the link below!
